Krenzer Marine 3 Fish Challenge

Scoring

Only teams entered into the pro/am may compete in the challenge. The object of the three fish challenge is to weigh 3 fish in 2 days with the heaviest 3-fish catch winning. The uniqueness of the 3 fish challenge is that it calls for strategy as teams can elect to weigh any number of their 3 tournament fish on day 1, however any fish weighed and counted on day 1 cannot be exchanged for a bigger fish caught on day 2.

Rules

The three fish challenge mirror the limits of the Sodus Point Pro/Am. Any fish weighed must come from a legal pro/am catch. If you are disqualified on any day of the tournament you won't be allowed to enter any fish on the particular day. However, it doesn't disqualify you from the three fish challenge as you may weigh fish on the other day as long as you weren't disqualified.
